

JAMAL SHAH

Business Intelligence & Data Analyst | Power BI • SQL • Azure • Python • AI-Automated Reporting

Peshawar, Pakistan | jamalshah199110@gmail.com | [linkedin.com/in/jamal-shah24](https://www.linkedin.com/in/jamal-shah24) | github.com/jamesk222

PROFESSIONAL SUMMARY

Business Intelligence & Data Analyst with 5+ years of combined experience spanning BI dashboard development, statistical modelling, predictive analytics and cloud data engineering. Delivers measurable business impact — including 92% precision fraud/churn detection, a 20% gain in demand-forecast accuracy, and a 50% reduction in manual reporting effort — by combining Power BI, SQL, Python and Azure data pipelines with AI-assisted reporting (ChatGPT & Gemini APIs) that makes analytics legible to non-technical stakeholders. Postgraduate qualification in International Business with Data Analytics; strong cross-functional collaborator focused on translating data into decisions.

CORE COMPETENCIES

Business Intelligence • Power BI (DAX, Power Query) • Tableau • Advanced SQL • Python (Pandas, NumPy, Scikit-learn, statsmodels) • Statistical Analysis & Hypothesis Testing • Predictive Modelling • Time-Series & Demand Forecasting • Customer Segmentation • ETL & Data Pipelines • Microsoft Fabric • Azure Data Factory • Azure SQL Database • Data Governance & QA • KPI Reporting • Stakeholder Management • GenAI API Integration

PROFESSIONAL EXPERIENCE

Business Intelligence Analyst / Data Analyst

Remote & Contract — Codveda, Uptail & Victoria Solutions | Nov 2024 – Present

- Delivered fraud detection and churn analysis dashboards achieving 92% precision, reducing churn misclassification by 18% and giving business teams clear visibility into at-risk accounts.
- Built demand forecasting reports and pipelines using time-series analysis and feature engineering, improving prediction accuracy by 20% and directly informing inventory and planning decisions.
- Automated recurring reporting workflows with topic and sentiment analysis, cutting manual reporting effort by 50%.
- Integrated ChatGPT & Gemini APIs into analytical workflows to accelerate insight generation and summarise findings for non-technical stakeholders.
- Built and maintained ETL pipelines on Azure Data Factory and Azure SQL Database, ensuring clean, reliable data for downstream dashboards.
- Ran exploratory data analysis and customer segmentation across multi-source datasets, validating findings with statistical testing before business rollout.

Business Intelligence Analyst / Data Analyst

MCA | Aug 2019 – Jul 2023

- Automated ETL pipelines and reporting workflows, cutting data ingestion and processing time by 40%.
- Designed KPI and executive reporting dashboards in Power BI, translating statistical findings into actionable business recommendations.
- Led data governance initiatives across 100+ systems, improving data integrity, consistency and regulatory compliance.
- Performed root-cause analysis and statistical reporting to support operational decision-making; supported migration of analytics pipelines and BI dashboards to Azure Cloud.

Back-End Developer (Data-Focused)

Veevo Tech Pvt Ltd • Pure Tech Pvt Ltd | Feb 2015 – Jul 2019

- Built and maintained API-driven data pipelines for scalable data collection across multiple client platforms.
- Designed and optimised relational database schemas, improving query performance by 30–40%.
- Developed backend systems and integrated data layers supporting real-time analytics applications and BI dashboards.

EDUCATION

MSc International Business with Data Analytics

University of Ulster, UK | Oct 2023 – Oct 2024

BSc Computer Systems Engineering

University of Engineering & Technology (UET), Pakistan | Oct 2009 – Oct 2013

CERTIFICATIONS

- Power BI Certified — Microsoft, 2024
- Advanced Data Analytics — Completed, 2024
- Data Analyst Bootcamp — Alex The Analyst
- BCG Data Science Virtual Experience (Forage) — Jan 2025

APPLIED MACHINE LEARNING (SUPPLEMENTARY)

Classification & clustering (Random Forest, KMeans), predictive modelling, feature engineering, model validation.
